Thanksgiving Project

In fifth grade, I like to explore,
things that I am thankful for and adore.

Kindness grows like a big growing tree,
all the way deep inside of me.

I am grateful for my loving family,
My mom, dad, and brother.
If given the chance, I would never choose another.

I am grateful I have the ability to learn.
I am also patient and know how to wait my turn.

Curiosity keeps me learning the most,
Like waves crashing along the coast.

These qualities contribute to my growth,
Giving me a positive experience with others and the world
both.
