

*My ability is creativity that makes my mind go to infinity  
Thanks to creativity, I have many ideas, so that I can impress  
my tias  
I use my creativity to build amazing things with LEGO, so that  
I can show to my friend Fransisco*

*My creativity takes me to many places, that brought me to the  
familiar faces  
I use it to draw masterpieces, which might have rips and  
broken pieces*

*My creativity that helps me everyday, makes my classmates  
yell out "Slay!"  
I make interesting foods with it, that might make me spit  
I would really enjoy to continue, but because I ran out of time  
I have to leave you.*
