# THANKFULNESS

11/14/23

MVP

6-3

1. The qualities that I have is imagination and I use my imagination when I am bored or when I'm drawing.
2. Another quality that I have is curiosity and I use that quality when I see people doing things that I want to know or something else.
3. Other one is the teamwork I use when we do fast work or something that takes a long time to do.
4. Another is the adaptation and I use it when I am in a part that I don't like. I just found a part of a house that I like and I can stay there for hours.
