## Thankfulness

There are many qualities that people have that I'm thankful for. One quality I have is collaboration because I like to put effort in work groups to accomplish a project or a task. Another quality I have is intelligence because I try to have the ability to apply knowledge and skills in a very short amount of time and I kinda have done it pretty good. I also have the quality of curiosity because I have a really strong desire to know or learn something. I have the quality of empathy because I really have the ability to understand other people feelings.
