

A Quality I Am Thankful For

O.L.S.S

A quality that I am thankful for is how I help everyone, even the homeless. I help everyone because it makes me and makes them happy. I save money up in the car so whenever I see someone homeless I give them money. I also help my classmates with a lot. I can't forget my family, I help my mom with the groceries and I feed the animals so my mom doesn't have to do everything.

I help my dad with the yard and he always appreciates it. I also enjoy helping my grandparents with a lot because they can't do much. I enjoy helping people so much because it makes you a good person with a good heart and many people don't care about helping others. That makes them not so nice. This is why I am thankful that I love helping people.
