What qualities are you thankful for?

What qualities am I thankful for  
you ask well

I love the way I can play

Without getting hurt

The way my body is able to twist and turn

Thankful I am, for the way I can belt out loud

I am thankful

For my family, the ones who are nice

I show passion

For my cinnamon tresses

An important quality of me

Sun bleached by the beach

Which I have endless gratitude that I can go in it

The way I can learn things quickly

My funny nature

My friendly persona

And which I am a Gemini

Thus where I am much obliged to be telling you

The one who asks what qualities am I thankful for

Intelligent am I

Hard work

Is what I put in

Sporty and athletic

One and the same?

Creative, artistic

Ever grateful, I am

For which that I am not alone

Now this is what I am thankful for

Now I am contented
