Thankfulness

There are many qualities that people have that I'm thankful for. One quality I have is being a good captain or leader, because that quality helps me teach other people from their mistakes and lets me help talk to people and tell them what is good to do and what is not good to do. One time I used this quality was when we were in the Semi-Finals in a tournament and told everyone to use a specific strategy that would help them gain possession of the ball and possibly win the game, and also I used that quality to make people confident in my team and believe in themselves.
