

Thankfulness

There are many qualities that people have that I'm thankful for. One quality I have is being a sharing and kind person. I'm thankful for this because it helps me interact with other people.

My Quality also makes the world a better place. I also use my quality everywhere like talking with other people going to school. My quality also is a quality I'm thankful for because people wouldn't see me as a bad person but a kind person this quality also helps. I would also be thankful for this quality because I have a sharing power and I can share stuff like ideas or things other people have to borrow. This quality also makes me a better person because this quality fits me.
