

Thankfulness

There are many qualities that people have that I'm thankful for. One quality I have is creativity. I am thankful for my creativity because it helps me with different things like art, music, and science and to help others. One time in my old school we did awards about identity, creativity, and community. And one time I got the award of creativity because I helped people in my class and in different grades. I was shocked that I got that award because I haven't gotten an award before. Creativity is a way that you can help people in different ways. This is why I am thankful for creativity.

CREATIVITY
