

Thankfulness

There are many qualities that I am thankful for. But my favorite one is my teachers, because without my teachers I wouldn't have been able to do all of this. Meaning that I wouldn't have known how to do problems in Math, writing essays in Ela, doing projects in social studies or science, and things like that, but my teachers have done so much for me so I can learn new things for my future. To show the importance of a teacher, I can give you a few examples. Just imagine how it would have been if there weren't teachers. We wouldn't have been able to read or write, we wouldn't have been able to learn new things. This is why I am thankful for my awesome teachers.
