

Thankfulness

There are many qualities that people have that I'm thankful for. One quality I have is leadership. I am very good with thinking of ideas for projects. I am able to help other students out with different subjects. Math is not my strong suit but I am still able to help kids who need it. I use this leadership when we get assigned a project in groups. Yes I do help but sometimes I get overly bossy and I need to cool down. I let everybody have a turn of an idea to help out the project. Last year I was also the School president for PS 88 Q. It was a lot of responsibility to make sure all the grades were happy. A big part of me knowing I have a good leadership was at 5th grade graduation when they were giving out awards and I got the award of leadership.

That is why I am thankful for my leadership quality. It helps me out in a lot of ways and I love it so much.
