

Thankfulness

There are many quotes that people have that I'm thankful for. One quality I have is that I know my colors. I used it a lot of times because people did not believe that I knew my colors and people were surprise that I could guess the colors. I won a color guess reward from my old school and I was so happy that I can guess color but I still need to practice my colors to not lose my guess color because if I don't practice my colors I will forget my colors and that is why I'm thankful for knowing my colors.

Crayon Colors
