

Thankfulness

There are many qualities that people have that I'm thankful for. One quality I have is self-awareness because sometimes I think of what is going to happen if I do something wrong or if I do something good. I also process if I should do something that I'm not supposed to do. I also try to warn my friends of what is going to happen if we do something that we were not supposed to be doing. One time I used self-awareness was when I was once in school during lunch. I was trying to play with food and after I thought of what would happen if I played with the food, teachers would see me and I would get in trouble for it.
