

# My Special Qualities

By Claire Stough

I am thankful for being a superstar and having a lot of courage and being very brave. I am a superstar because I am in theater and it takes a lot of courage and bravery to go on that stage.

In school I am very thankful for my brain. Why am I thankful for that? I am very smart and a hard worker and I love school. I am thankful for my creativity because at home I make cards, houses, cars. I do this with recycled materials. Last but not least, I am loving because I love my family members and my dog, Bella. These are the special qualities that I am thankful for.
