

I am Grateful that I am a Good Friend

I am grateful that I am a good friend.

I am a good friend because I invite my friend over.

We call each other a lot and we tell each other everything.

We know each other for 11 years. She is like my big sister.

We talk all day and she helps me with whatever I need.

My friend inspires me to do good.

I hope she will always be in my life.

I am grateful that being such a good friend has given me such a good friend.
