

Thank you **music**, 

Ever since I was young you have been there for me
You were always a shoulder to lean on
In my brightest and darkest times
Since before learning the recorder and then moving
farther

You shine bright in my life like a shining star,
You are my first love,
And you will be my last

So as I age from young and bright to old and gray
I know you will be there always
I put my soul into you
And you gave a better one back.
