

Dear Tostito,

You are my best friend
Whether it be human or cow
It's only been you
When I was sad you always listened
Never talked back or judged
When I was angry or stressed
Your sweet friendly nature
Brought me back

You showed me what a true
Animal to person bond was
And how strong how strong ours was
I love how my Fruit Loops were never mine
They were ours
This year at the fair was the best one of all
All because of you

The worst thing I could feel
Was seeing you go
My best friend left
But stayed in my heart
Until April we'll meet again
You'll always be my best friend
