

Thank you real friends,

One of the hardest things in life
Is to find a real friend
A friend that cares
You can go from
best friend to
Friend to
Stranger
in less than a year

I once had a lot of friends
Fake friends
People that take advantage of kindness
I would rather have 1 best friend
then 1,000,000 fake friends

I didn't know what a real friend was
until this year
A real friend is supposed to be there for you
Not you there for them
But them not there for you

I put a smile on everyday
I hold the door open for the person behind me
Yet it still takes 12 years to find a real friend
A friend that cares

But that's life
Life is a bulldozer
True friends help you not get crushed by the bulldozer

You can't get through life without friends
or at least it would be hard to

There is nothing better in life
Than a best friend
They help you have fun in life
They make life more than just anxiety

I think everyone should have a real friend
Friends are like rainbows
You can never see your friend without being happy
