### Thankful Essay

Some qualities I have are that I am athletic, kind, creative, and a great friend.

First, I am athletic because I am a cheerleader, a gymnast, a swimmer and I play softball. Cheer is my favorite thing to do because I get to fly and base during stunts. Every Monday, I get to do a private lesson, which helps me improve my skills. Right now in cheer I am trying to get my standing tuck. This summer I was on the Hillside swim team and I came in first place in backstroke during the championships. I have played two seasons of softball and love to play with my dad before a game. This is why I am very athletic.

Another quality I have is that I am kind. I am kind because I always try to help someone that got hurt in the schoolyard by bringing them to the nurse. I love helping people especially when they need someone. It feels good to help someone. I am kind at home because I share my things with my sisters and I play with Bianca so my mom can have a break. Every day when we get outside to go play for recess, Juliette, Coco, Olivia and I help Mrs. Reems with her papers.

Another quality I have is that I am creative. I am creative because I have a great imagination and I can draw anything that comes to my mind. For example, on the day we were leaving for vacation, I used my imagination to make games, which was really fun. I am also creative when it comes to fashion. I love designing outfits, and the outfits that I pick out are so cute and stylish. My favorite thing to do over the holidays is decorating, it is my favorite thing to do. It always looks good, and what makes me feel good is that people comment about it. This is why I love to decorate.

The last quality I have is that I am a great friend. I am a great friend because I always help a friend out when they need it. I am also very nice, which makes me a good friend. I also never break a promise with a friend. I can also stop a fight by just being funny. That is the great part about friendship, you can always help no matter what. This is how I can be a great friend.

I am thankful that I was given these qualities of being athletic, kind, artistic and a great friend. These qualities will lead me to great advantages in life.
