

Thankful essay

One thing that I am thankful for is athletics. I love sports and they show what's really inside. I really like sports because it's unique. Sports are a good workout and fun to play. I like softball, basketball, and football. They're good because it really shows my personality with your friends!

Another good quality is good will. Good will means that you care for others. I like caring for others and helping them because it helps a lot of people. It's helpful for others in need. You can help homeless people by giving them money or stuff that helps them to live.

Another good quality is Creativity. I like Creativity because I love drawing and it fits me. Once I drew an Air Jordan sneaker, and a lot of other stuff. Drawing is really fun, but painting is fun too! You can put your hand in the paint and put it on the paper!

Another good quality is bravery. I am very brave. Once my brother and I were outside in my backyard. He dropped something in the pool. So he was upset. So I went in the pool and dove into the pool, and my brother was very happy. Those are my qualities that I'm thankful for.

Another quality I have is being athletic. I think being athletic is important because you get to have fun and exercise and you get a lot of exercise.

Another quality I have is being careful. Being careful means you are very worried about your safety and other people's safety. Being careful is a good trait to have because you will not get hurt often. Being careful can also be a bad thing because sometimes you might not gain anything or experience. Being careful is important because it helps you be safe and prevent a lot of bad stuff from happening to you.

After I have written about all of my qualities, I am very thankful for each and every one of them.
