

What I am Thankful for this year

I am thankful for the grass under my feet. I am thankful for the food we eat. I am thankful for all these things, but most of all I am thankful for the Lord. He made Adam and Eve in the beginning and us in the end. I am also thankful for my family, friends and teacher. They are there for me when I am sad.

Why I am thankful for this. I am thankful for all of these things because I am given it. My family is the reason I am alive, even my mom. My mom and dad makes sure I have all my wants and needs. The best for last, the Lord, I am thankful for him because he cares for us. He made the lands and the waters. The Lord is like an invisible friend, but he is actually there.

This Thanksgiving is special to me because I don't know what we are doing, well my mom does not. We usually go somewhere. Last year we went to our grandpa. It is also special because I don't usually like Thanksgiving. Fun Fact : Iroquois started this all. I love gobbling up all the food on the table. Thanksgiving is cool.

Thank you,

Shay-Hannah Smith
