#### What I'm Thankful for this Year?

My name is Victor Ayuso. I am 8 years old. I am thankful for even having presents because most people don't get presents at all . I'm also thankful for having a family, cousins, aunts and sisters.

I'm thankful for this because you can help other people out if they need some help. The reason why I'm thankful is because you can spend time with your family at home and probably play board games.

I am thankful for Thanksgiving because everybody can come to your house for Turkey and take a group photo and just have fun with your family.
