## **Gratitude**

I'm grateful for my family and so much more  
I'm thankful for life,  
For the nature that surrounds me

I'm grateful for the eyes that show me the world  
For the people who allow me to love  
To my legs that keep me going  
To my hands that touch the hearts of others

I'm grateful for the friends who encourage me  
For the love that I share with others and myself  
For the family that makes my day

For light that guides my way while some are still in the dark  
For the stars shining in the sky,  
like a sign saying hope will always be here  
For the sky that holds those stars

For the the animals that roam the Earth alongside us  
For the warmth of my home that some can't experience

For the water we drink that millions will never have  
For the opportunities that I have

Most importantly I'm thankful for me  
The one that reminds myself to be grateful for every little thing  
And for you, the people who walk beside me on this planet  
For the people who strive to make changes  
For the people who inspire us to keep going  
And to the people who keep going no matter what

I'm grateful for the people who aren't afraid to use their voice  
Who stick up for others  
Who inspires us  
Who isn't afraid to ask for help  
Who isn't afraid to express their emotions  
And to those people I'm grateful for you.
