

My Qualities

On Thanksgiving you are supposed to give thanks, and I will be giving thanks to God for all of my qualities. I have many qualities that are all very important to me, but some I am more grateful for than others. The first quality is that I am a very intelligent person. What I mean by that is when there is anything wrong with something I can fix it. When I'm in school I pay attention and do my work. I am also very athletic. I play 4 sports: baseball, ice hockey, football, and lacrosse. I am thankful that I am very good at all of these sports. I mostly pay the most attention to hockey and baseball because those are what I am best at. Another quality I have is being very respectful. I am very respectful in school, when I am at my friends house, when I am talking to my friends, and family.
