

Family

Mom

The women from whom I received life
The women who sacrifices her happiness for my own
The women who is my biggest supporter and inspiration
My mother, the light shining through the dark
The smile to start and end each day with
My true best friend

Dad

My protector, my guide through life
The positive spirit that brings joy throughout my day
Always there through the good and the bad
The hand to hold when i'm scared
The first man to show me true love

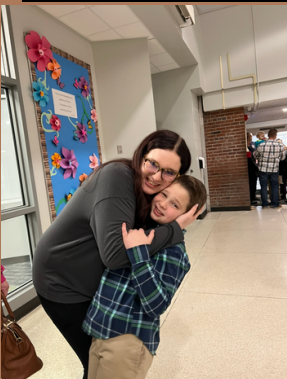

Logan My "twin"

The one who made me a sister
showing me what true sibling friendship is like
There to just hangout,
Go through life
And always have each others backs

Ellie

My built in best friend
My only sister
The little curly headed girl
Who always puts a smile on my face
The free spirit
The endless sleepovers
And girl talk
The things I wouldn't trade for the world

Hunter

Although we are the furthest apart
I feel the closet to you
We have always been together
And our relationship is like no other
The laughs we share
And the memories we make
I will hold with me forever
