What im grateful for

My family

I have a great family. I love them all the same but i love them for different things that they do. 1st I love my older sister because she is so funny she makes me laugh even when I say that nobody can. 2nd is my step mom I can count on her to get me things when needed. (same for my dad + biological mom/step dad) but my step mom takes me and my sisters to the park all the time. 3rd my two little sisters. They can be annoying but I still love them. They Love playing with me whenever they want to play they come to me. Last but not least my little brother. He loves a lot of the same things as me he isn't much younger than me only 1 year and 5 months. But he also likes to play with me (on the Xbox) not outside but I play with him sooo much but I don't mind.

I LOVE MY FAMILY!!!!!!
