Reduce Let us begin by using fewer resources in first place Shop differently, look for durable things. Don't chase the latest fashions.

Reuse A computer can be upgraded, car resold, old shirt can become pajama top. An opened envelope to a shopping list. Reuse the jars and packages to store stuff at home. Think more!

Recycle Try to learn recycling rules in your community. The wrong kind of plastic can "CONTAMINATE" the whole batch. Shop for green products, by all means!

THE 3R'S STILL RULE
