

## What Are You Thankful For?

By Zoe Casuccio

*There are many things that I am thankful for. Three of these are my family, my friends, and my food.*

*The first thing that I am thankful for is my family. I'm thankful for my family because they feed me when I'm hungry. We eat dinner together at the kitchen table. I'm also thankful for them because they keep me safe by sleeping with me. I'm also thankful for them because they love me.*

*The second thing that I am thankful for are my friends. I'm thankful for them because they play with me. I'm also thankful for them because they sit with me at lunch. I'm also thankful for them because they invite me to parties.*

*The third thing that I'm thankful for is my food. I'm thankful for it because it helps me grow up. I'm also thankful for it because it helps me get taller. I'm even thankful for my food because it helps me be stronger.*

*I'm very happy to be thankful for these. What are you thankful for?*
