

REDUCE
Use less... buy less... avoid waste... turn off lights...
take shorter showers... carpool!

REUSE
Use things more than once... use cloth shopping bags... repair...
regift... try travel mugs... compost!

RECYCLE
Separate waste materials so that the recyclable products can be
transformed into something new!

PLANETPALS Recycle Kit E-I

No matter where you live you can recycle!

Many things can be recycled. Find the things in the chart below that can be recycled where you live. Think of other things you might be able to add to the list!

The importance of the 3Rs: Reduce, Reuse, Recycle

- ❖ The most effective way to reduce the garbage is reducing the amount of solid waste produced
- ❖ By reducing waste at the source, you save the resources like water and energy
- ❖ Like reducing, reusing avoids creating waste rather than trying to recycle it once it's already there
- ❖ Operating a well-run recycling program costs less than waste collection and landfilling
