Mrs. Christie

I realized that
Thanksgiving was near,
I thought something was
very clear,
I am thankful
for my entire family, clean water
and all the electricity.
I am thankful for the
food in my plate and it's really great,
I am thankful for my school and my safe environment,
it's really cool.
I am thankful for
transportation, like
the bus coming everyday for us
I am thankful for
the roof over our heads,
good health
and warmth in our beds,
these are some things I'm thankful for
once it's Thanksgiving
there will be more.
