

I am thankful for equality
on Earth

I am thankful for equality on Earth, because if there was no equality, than people would start fighting. That would lead to wars which would not be good for the people on Earth. No matter your religion, race, skin color or if you are fat, thin, short, tall, male, female, pretty or ugly, everyone should have the same value in life. I believe that no matter what you look like, deep down we are all the same. When I hear the saying "Don't judge a book by its cover" I think that people should embrace that concept all around the world. We should all be thankful for the Earth and all the people who live on it.
