What I'm thankful for...

There are many reasons why I'm thankful for my family. One reason why I'm thankful for my family is because they give me things. Without my family I wouldn't have my toys or my video games. Another reason why I'm thankful for my family is because my family takes care of me. Without my family, I wouldn't be in good health or go to school. My final reason why I'm thankful for my family is because they love me. Nobody in this world gives me the same amount of love my family gives me. In conclusion, this is why I'm thankful for my family.

Happy
Thanksgiving
