## What I Am Thankful For

### **I'm glad I'm me**

I'm the only person I want to be. My mom is nice and takes care of me and always gives me food to eat. When it's Thanksgiving I give people food, they are very happy and eat so good. When they're done they're so thankful, and I give grace to all the people. After all they're so nice and I make some friends that have no lice. They're so nice and that's so good, many people might be like that too.
