Thanksgiving

Thanksgiving is a time for family members to come together at a place and catch up on what has happened over the year. It all dates back to the first thanksgiving in 1621 in Plymouth. All the Pilgrims and Indians came to enjoy a feast that brought them together. As a result, we celebrate Thanksgiving in November.

This Thanksgiving, I am thankful for my family because they support me in what I choose and help me in any way they can. I am also thankful for my older brother because he helps me with homework and I am grateful for my older brother's opportunity to get into boarding school. Another thing I'm thankful for is P.S.23 because P.S.23 has taught me so much to prepare for middle school. I'm thankful for the opportunity that my dad got to be a senior supervisor. I am also grateful for my mom because she teaches me more than school can. I am thankful for my doctor because he helps make sure I have no diseases or sicknesses and helps me treat them if I do. I am thankful for my little brother because I always wanted a younger sibling. I am also thankful for God because he made everything from the tiniest insect to the giant universe. Lastly, I am thankful for my Grandma. She works to help me and does chores around the house and then she helps out with the baby too. She feeds him, bathes him, and puts him to sleep.

Therefore, This thanksgiving I am very thankful for the world and all the things around me.
