## What I am thankful for

I am thankful for my family. I am thankful for my family because a lot of people in the world don't have families and i am very very grateful that i have one. Some people get left behind or their families pass away and I feel terrible for then and I am very lucky that I am not one of those people. I love my family and I have no idea what I would do without them. My mom helps me so much and I have no idea what I would do without her because she is one of my best friends and so is my sister. She helps me so much like when we go shopping and she helps me so much like when I go shopping and she helps me pick out outfits for school she also helps me with my homework, those are just some of the things she does for me but there are many many other thing she does and I am very grateful for that. I try to give it back to her by cooking and baking with her and cleaning with her. My dad is really good at math and spanish so he helps me study for those subjects I am very appreciative of that because people don't have families cannot do those fun thing together. My sister is the best friend I have, I could always rely on her and I know she will always stand by my side and put a smile on my face if I am very sad.
