

What I Am Thankful for

By Christian Rafferty

I am thankful for my family because they make me happy and they are nice to me. They bring me to my sports after school and they provide me with food, water, nice clothes, shelter, and a nice and cozy bed to sleep in. my mom and dad are different than a lot of other parents because they take me on vacation, they would always keep their promises, and they always say that I am so proud of you because you are doing so well adjusting to Weber. They always try and cheer me up when I am sad. They always try and make the day fun. They always take care of me. I am also thankful of my friends because they are always nice to me. They always want to play with me and I want to play with them. We always play fun games together like Manhunt, soccer, or basketball. I am also very thankful for education because without education there would not be any cure for sickness and there would not be any cool new inventions. Without education you could not get into a good college and you would not get a good job and you would not have enough money to have a nice house. That is what I am thankful for.
