

THANKFUL

I am thankful for each waking day I get to have again

I am thankful for my family to love, have fun, help and live with

I am thankful for my home to eat, sleep, and live in each day and night

I am thankful for the water I drink, and the food I eat to refresh me and give me energy

I am thankful for my school where I learn something new every day

I am thankful for the earth to live on, for all it provides us, and all its wonders

I am thankful for my friends to be nice to, laugh and play with

I am thankful for different kinds of transportation to take me where I need to go

I am thankful for my community to live in and go to different places

Last but not least I am thankful to God for every minute of my life
