

## *What Are You Thankful For?*

*Thanksgiving to me means that it's a day of thanks. In 1621, the pilgrims invented Thanksgiving. They celebrated by having a big feast. They were thankful for a lot of things. I am too.*

*Do you have a big family? I've got a small family but I'm still thankful for them. The people in my family include my mom, my dad, and my brother. One time my parents brought me to Lake George. It wasn't too long of a ride. We went on the go carts. It was so much fun!*

*I have a lot of friends. How about you? I'm especially thankful for my friends. Without my friends, I'd be bored out of my mind. I'm really glad and lucky to have such good friends.*

*I really love cars. My favorite kinds of cars are muscle cars, and I'm thankful for them. The thing I like about them is that most of them look cooler than the fast cars and I like the rumble of the engine in the car. Almost all my friends like just fast cars, like, Lamborghinis. All my family likes muscle cars. We even have one! The one that we have is a black, with white stripes, 1988 Monte Carlo SS.*

*As you can see, I'm thankful for a lot of things. But those are just some things. There is so much more I'm thankful for. My family and friends are my top two things. What are you thankful for?*
