Prompt: What are you thankful for this year?

This year, I am thankful for several things. I am thankful for receiving good grades on my progress report sheet and passing all my classes during the first marking period. I moved to New York from Holland this past summer and I am thankful that I am attending a great middle school in New York because I am learning a lot and the teachers are helping me speak and write in English. These are the many things that I am so thankful for this year.
