

"I Am Thankful"

To me, the term thankful means something loving and thoughtful to me. Something I am thankful for is God because he made the earth and died for us on the cross he put me on this earth to bring people to God. I'm thankful for my family because, since I am the youngest my brother, mom, dad, sister help me with all the things I have trouble with. I am thankful for fishing because my father and brother taught me how fish for salmon. So then I got a 30 pound salmon. I am also thankful for my Kawasaki 300 four-wheeler because my dad went through lots and lots of trouble to get it for me, as you can see, I have been thankful for.
