

I am thankful for the men and women who joined the military to save our lives. They are very brave. They risk their lives to save our lives. I am also thankful for the doctors in the military. I am also thankful for my grandpa who was also in the military. He is very brave. I think it is very important to support and honor those who served our country. Don't forget to be thankful for our military, not just on Veterans Day, but every day.

Julianna Sannicandro
