

## I am thankful

What I am thankful for is my family because they are so helpful. My mom helps me to resolve problems with my brother. My dad helps me to be an inspiration to others. My brother helps me to be and safe.

But what I am really thankful for is my mom and dad because my mother cooks for the whole family and helps around the house. My mom also pays bills and knows various defense capabilities. My dad also pays bills and when needs something repaired he will not just wait to do it later he will get the job done. My dad helps my mom when she is hurt. My dad is a EMT (Emergency Medical Technician) he takes people to the hospital and he is the boss of his station. My mom and dad are like super heroes.

My family and I are unstoppable!
