My Top Three Thing Im Thankful For.

There are many things that people are thainkful for this year such as their family, friends, and toys. I myself have Somethings that Im thankful for. I am thankful for so many things this year but my top thrice things are my home, education, and most importantly my parents.

One thing that Im grateful for is my education. Getting your education is What some student take for granted. For example, there are many kids that are not able to go to school and be educated by their teachers because they dont have the everyday materals that I have everyday. Another reason why I have appreciation for my education is because I can use my education to help someone else. For instans another way Im grateful for my education is because latter on in my life I will be able to help a Childe my age or younger then me Something new.

Lastly Im' thankful for my edcation because I will have the chance to go to a good Collage and get a good job. for example going to Sichool eveyday and getting educated will help me get into a good Collage and get a good job to privde things for my family. Getting my education impacts My life in Many ways, Stating off with the fact that it will help me in the near future.

Another thing that I am grateful for is My home. Im grateful for my home for many reasons. Starting off, There are a lot of people that dont have homes to sleep in and to stay warm I know that I have some where to Stay, Wich is very important to me and my family. Another reason why Im grateful for my home is because I can go to school knowing I have a home to go back to. For example, I can go out to School where I don't have to thinck about where I'm going to sleep because I have a home to go back to evey night Finally Im grateful for my home because I have boilt many Memories. I have been living in My home for eight years and I have made many Memories. One memory that Stood out to me Was when my mom first Came from the

the hospital with my little sister. Being grateful for my house impacts on me becaus you never know hen you can lose or burn your home.

Lastly there are many things that people are grateful for but Im mostly grateful for my parents. I'm grateful for my parents because they provid things for me and my siblings. For instance when my siblings or myself are sick they make sure to take time out of their day to take my Siblings and I to the doctor to make sure that were healthy. Another reason why I'm grateful for my parents is because they make sure that my siblings and I have everything that we need. When my parents come home from work and they see that there is not so much food they make it their top priority to have food in our house, Cloth on our backs and a roof over our head. Finally, I'm grateful for my parents because they make sure that when we got to sleep, we wake up with a full stomach. My parents work 10 to 12 hours sometimes and they make sure that we have all three meals of the day if not they would pack food for me and my siblings

Everyday there are people that say they

are people that say their toys and friends so that is why I felt that so that is Why I felt that I would give a reason Why I'm grateful fo my home, education and most importantly my parent. I'm thankful for my home, education and my parents because with out any of these things I wouldn't be the person I am today.

I hope you enjoy

To be thankful you need to Be thankful for what you have you'll end up having more. If you concentrate on what you don't have, you will never ever have enough. This quote by OPrah Winfrey means that you should think positive and be grateful for what you have because if not you will never believe that you have enough. I want to give thanks for having a family, friends, education and a home.

I am thankful for having a family. I am thankful for having a family because my family cheers me up when I am not having a good day. This shows that even when i'm in a bad mood my family supports me. Another way I am thankful for my family is that they teach me things early. One way is that my cousin teaches me math so when I get to his grade I know how to do the work.

I am thankful for a family because my family is understanding. This shows that if I am having a bad day and I talk to them they will understand me and give me advice. In conclusion I am very thankful for having a family.

I am thankful for having a home. I am thankful for this because if not I would be homeless. This shows that not everybody has a home so you need to appreciate what you have. I am thankful because if I was homeless I would need to find a shelter to live in. This shows that if you can't afford a home you will live in a shelter. I am also thankful because if I had no home I would need to ask people for money in the streets. Poor people ask for money to be able to afford things. In conclusion I am thankful for having a home because if not I wouldn't have a place to live.

I am thankful for having friends. I am thankful because my friends

help me when I am confused. This proves that you and your friends can learn from eachother. Another reason I am thankful is because my friends hang out with me. This proves that by having a strong friendship you can create a strong bond. I am also thankful because If I had no friends I would have been a loner. This proves that friends can make eachother feel good about themselves. In conclusion I am thankful for having friends.

I am thankful for having education. It is like a gift not everyone has the option to learn. This shows that some kids can't afford to go to school. Another reason is because what you learn will always be with you. This means that what you learn will help you in the future. I am also thankful because if I had no education I would not know anything. This means that if I had a job I will need to ask People what to do. In conclusion I am thankful for Education.

I want to give thanks for having a family, home, friends, and education. To be thankful you need to have a gratitude attitude. This shows your appreciation about things. To be grateful is imeportant because people are going to see that they can trust you and that you are optimistic. which means you need to think about what you already have and you will end up having more.

I am thankful

I m thankful for a lot of different things. They are my family, school, house, friends, mom and family, but I have three special ones. I'm thankful for three things which are my mom school, and friends.

I am thankful for my mom because she takes care of me. She takes care of me with all her heart when I am sick. She will take care of me if she loves me she give me hot soup if I am sick. She would do anything to keep me alive. She would show her love by keeping me safe by feeding me, and by keeping me out of danger. She would do whatever is the best for me. She tells me what to do make me do the right things.

School is important to me

because learning can becaome succsesful. I can get a good career. I can get a good career because if I study and finish college I can get a good job. I can learn new things. If I want a career I need to know and learn new things. You can make new friends. If I know friends with good jobs I can ask them if they can hire me.

My friends will stay on my side. My friends will help me if some thing bad is happening to me. My friends will help me by standing by my side. They will try to keep me fine in school. They will make me laugh. They will make me feel good and share a laugh. They will keep my joy up. They will help me in school. This will help me if I have a problem

with the work. They can be like a tutor for if I have a problem.

All of these thankfulness will have an impact in my life. My mom impacts my life for being there for me and being my inspiration. School impacts me by having a life and can help me get a career, learn new things, and make new friends. Finally my friends impact my life by having someone to play and talk to.

I am thankful for friends, school, and my mom. I am thankful for my mom because she takes care of me. I am thankful for my friends so I have some one to talk to. I am thankful for my school because I can learn new things and get a good career. Thanks is important because it shows how you show your care for that. I like to gives thanks but I wonder why it is important.

Michelle Moreno American dream School

Having to be thankful is awesome. You have thanks for something.

I am thankful to my mom for many reasens. I am thankful to my dad, brother for many wonderful reasens.

My three best people I am thankful for this year are my mom, dad, brother.

My mom is the best mom I ever had in my life. My mom had always take cared of me. I am thankful to have my mom because when I am sick she makes me hot soup and stays waked up until I'm cure. This shows how she cares of me and how she sacrifices hersel just to cureme. I am also thankful to my mom because she talks to me when I'm sad and makes me giggle. this detail basically shows how she cares so much about me how when Im sad she makes me laugh. I am

very thankful to my Mom because when I fall and hurt myself She is always there for me. She's prepared what is comming up. This Shows how caring She is to me in many ways. My MoM is important to me in many ways, and done many things for me.

My Dad is the one who is there for me and cares for me. I am thankful to my dad because he is the one who gave me a home. He has been the only one who gave me home and to let me live. I am thankful to my Dad because he always buys food for me and my family to be able to eat. He is the one who only cares of me and buys me many things. I am very thankful to my Dad because he is the one who only cares of me who always buys me the supplies. This detail Shows how he has to work so hard to give me the things I need. My dad had always cared about me and how he loves me.

My brother always protects me and always cares for me. I am thankful for having a brother because he always

protects me from strangers. This shows how he protects me around strangers. I am thankful for having a brother because he is always there when I need help with something. When I have homework trouble he is always there until I get it. I am also thankful for having a brother because when he sees I make a mistake. He fixes it. When I make a mistake he says "it's wrong let me help you". He is important to me because he has always been there for me.

My best three best people I give thanks to is my mom, dad, brother.

My thankfulnes Essay!

Ashley Hernandez 11/18/15

Have you ever stopped to think about who you are thankful for? Most people don't. Most people don't say thank you to other's for what they do for them. Most people take people for granted. That was me. I used to be like this but now that I have thought of it, I have many things that I am thankful for. And their are only top three things that Im thank ful for and those thing's are teachers, family, and ADS.

This year Im greatful for two special teachers. They are Seño DeGiorgio and Seño Allgire. Im grateful for two of the amazing teachers in the world. The amazing teachers are Seño DeGiorgio and Seño Allgire. These super teacher's are amazing because they alway's make us laugh with their jokes. Like for exampe Seño Allgire messed up on a word and Seño DeGiorgio Corrected her and she and also the class started to laugh. Seño DeGiogio and Seño Allgire are also amazing because they push you to your very best. Seño DeGiorgio and Seño Allgire do these things because they care for us and they want us to

In addion they are also your number one team because ther show loyalty and carenes. My family shows loyalty and carnes because when my dad found out that my Grama pasted aw-ay. We all whent and gave my dad a huge and we said "we are all in this together we are not going to ley you down". Thes people will impact my life because this shows me that they will be with me throw Good times and bad times.

This year Im greatful for alot of things but the most of all I great ful for is ADS. Im great ful for ADS because this school gave me a good egicaion. One exampe is that they are teaching us a language and that is spanish. I say this because this gives other kids to learn other languages and get to Know about them. I m also great ful for ADS because I got exepted into a really Good school. If I was never exepted into the ADS school IVe would have been in the most anoying

and boring school ever. I wouldn't be with the most asome teacher or freinds. In addion Im also greatful for ADS because I got to meet new people and new freinds. If ADS never had resas or lunch I would have never meet some of the greatest freinds that I have or meet some of these amazing teachers. ADS will impact My life because when I get older I will always remember that school.

I have many things Im greatful for this year. And these are my top three teachers, family, and ADS. My main point of this essay was to write about what kind of things we are greatful for like teachers, family and ADS. These are the things that I show graditude to. writing this essay was important because I just expressed my feelings and my thoughts on what Im thankful for. If you had anthing that you were greatful for what would it be?

Janet Hernandez-Pomero November 18, 2015

I Am Not Selfish I am THANKful!!!

"Lasagña is that close yet!!!" I screamed.
"No answerd sissy. First you have to-"
"Say what I am thankful for!" I finished her sentence.
"Stop doing that!" She said.
"No I won't until you apoligize!" I said.
"Apolagize for what!!!" She exclaimed.
"For acting all big and bossy about knowing more than me-" "thats enough already" she finished.
"You don't know anything about lasagña!" I yelled.

NO interruptions please, I am thankful for books, culture and a heart.

Books are what I am thankful for. Books give me the opportunity to see through the authors eyes of why they chose to write this novel. This means that the author had a reason to write this or something that told them, this will make a grab for the reader's eyes. Another

reason that I am thankful for this is that I can use all the information I read to use as a distraction. Sometimes I feel guilty, depressed, scared ect... and you want to take that out of your mind. Books also inspire me to be a better writer and to prove or show my thoughts through writing. Books always prove or show something in a creative way. This is important because it keeps me away from all the negative feelings and it impacts me by helping my brain gain information.

Culture is another thing that I am thankful for. I am thankful for this because it is a part of my identity and who I am. For example I am 50% Mexican which makes me talk Spanish, like spicy food and follow my ancestors footsteps. Culture is what makes me use my brain and why I am here. Mexican culture goes through struggles but is always hard at work and thats what I learned about my culture. Without this culture I would never survive. Mexican culture is hard and it teaches me lots of lessons that will

help me survive these challenges. This impacts and is important to me because it makes me, me!!!

A heart is what I am mostly thankful for. A heart that cares and loves people. To have a heart that has feelings but they are good ones, about people. It is a heart that functions and keeps me alive. Without this heart I would never be alive. A heart is a gift from God. He gave me the chance to prove myself to him, that is why I am here. This impacts and is important because I would have never exsisted.

Books are my eyes, Culture is my identity and my heart is my exsistance. Books are why I love to write. My culture makes me who I am. My heart is a gift that I treasure. These are things that I protect because they are what make me, me. I am not sure if I am being selfish but I will always protect these things with my life.

Thanksgiving

"We must find time to STOP and thank the people who make a difference in our lives." John F. Kennedy. People in battles and fighting for their rights, relate to this quote. They made the United States of America get freedom. We should take time away from something that is not important, and use it for something full of importance. Thanksgiving is right around the corner! People are thankful for many things. Such as God, food, house, soldiers, pets, families, and more. These people have made a very big change in my life: God, family, and friends.

"If you put God first, you will never be last." We should always be thankful to God because he gives us anything we ask for. God helps us fight sicknesses that make us feel weak inside. With hope in God, you will you will get through any issues and problems. Sometimes you need to have a lot of faith. If you do, God will help. God loves every body day and night, no matter what. Even if we do

Paula Rivera

Something bad, he will still love us. It is all about the power of love. God is always there for us when we need him. If you ask for help, God will help. God will be there when you are sick. You may not see him, but he can see you. God helps us with our struggles and always will. We should appreciate every moment with God.

Families are together, forever and always. "Keeep your friends close, but your family closer." This quote means families workhard, stand up for you, and will always love you. Families work hard to get the job done. My parents dont stop working for anything. They do the best of their abilities to keep moving on. My parents wont stop unless requested. Sometimes they stay up all night to get work done. They do alot of work for us and we should appreciate it. Like I do. If you are getting bullied by someone, dont your parents help? We should always thank our parents for sticking up for us and know that someone has your back. Our family members love us more than anything. Parents/brothers & Sisters do things for your
