

All My Thanks

I'm thankful for internet, drawing, singing, and family. These things are my life, and I would be nothing without them. They are my everything, and I need them. Without these few things, I wouldn't be who I am today.

I can't live without the world wide web. I pretty much do everything on a screen. Play video games, read stories, watch YouTube, everything! I need technology, for almost everything. Even drawing! Which brings me to my next subject. I'm also thankful for pencils, paper, colors, everything that has to do with drawing. Sometimes I even draw music notes on my worksheets. Now that's show's I'm also thankful for music. I live to sing. Ever since I was little, whenever a good song came on, I would sing my little heart out. Sometimes, it might even be a duet! If you're lucky, you might hear my sister sing along. And that brings me to my last subject. My family. I love my family, and can't stand it when their gone. I need them, and they need me.

Finally, I am thankful for all these things, but I'm also thankful, for much more.
