

THANKFUL

I am thankful for my parents. They work hard. They feed and take care of my brother and me. They teach me that school is important.

I am thankful for volunteer firefighters. They do not get paid and risk their lives for other people. Firefighters stop what they are doing and even if it is a holiday, they just go and save people's lives.

I am thankful for the police. They help and save a lot of people and risk their lives too.

I am thankful for being in school. I would not be as smart. I would not know how things work without school. School helps kids learn.
