A few things I am thankful for.

Everyone has something they're thankful for. I am thankful for many things such as my family, my home, my school, and my pets Kiva and Ziggy.

I am very thankful for my family. They help me with a lot of things. My parents help me with homework and things around the house. Sometimes my brothers are not very helpful. My baby brother Kristian is much nicer though. If I didn't have my family it would be very hard because we have so much fun together. Most days are good days with my family.

Another thing that I am thankful for is my home. I definitely need a roof over my head. My home can protect me from wild animals. It also protects me from different types of weather like rain, hurricanes high temperatures and low temperatures. My home is the best place to be when it's cold outside it keeps me warm. It can also give privacy when I need to use the bathroom, change my clothes and take a nap. My home is a big help for me.

The third thing I am thankful for is my school. In the morning I look forward to going to school. I enjoy learning new things. I get a lot of knowledge there. I think fourth grade is kind of easy. Mrs. Williams is a great teacher. She makes it easy to understand the class work. At school there are many exciting things to do. I also have a few great friends at school.

The last thing I am thankful for is my pets. Keva and Ziggy are rottweilers. They keep my company and they also keep me safe from burglars. Keva just had puppies so she is a lot fussy now. Ziggy howls in the night. He loves to play whenever you run or play with a ball. He'll come chasing after you.

Now you know what I am thankful for. There are so much more to be thankful for especially life. Life is not good without happiness. As I said everyone has something to be thankful for. I feel that everyone should just be grateful.
