WHAT I AM THANKFUL FOR!

I love how my family gets along with each other. I am so thankful for all of the things that my family members have done for me. When I need to do my homework, I always have somebody near me that can help me. When I need to study, my mom will tell me to write it and I will look it up on the computer. Since, I love soccer my grandpa practices with me almost every day and I love it because I get even better. This is why I am thankful for every thing in my life.
