

## What Are You Thankful For?

We all have things we are thankful for. One thing I am thankful for is my friends; I will talk a little bit more on why I'm thankful for them in one of the paragraphs. It was the day of the party all my friends were coming over. Slowly my friends started to arrive, when all of them got to my house we went on my golf cart. You could hear the sticks breaking under the tires, the wind was whipping at us, and the birds were chirping. That is one of the reasons I am thankful for my friends. Thanksgiving is family and friends gather to celebrate.

One thing I am thankful for is my family. I am thankful for my family, because even though they really want me to play basketball they support me when I play soccer. Also I remember a time when I went to Dave and Busters. My brother and I went and ran around playing scary and fun games. While my parents got seats near the bar they ordered drinks and food. The second thing I am thankful for is weekends; weekends are amazing, because you get to play with your friends and can stay home if you want. Another reason is you get a break from homework.

Recess is another thing I am thankful for it's very important, because we get a break from doing work all day. We can go outside and play with friends. I like to play soccer on the basketball court with my friends and other classmates. We make teams and then we try to score by hitting the end of the court. Lunch is also something I am thankful for, because you get to sit near your friends and you can laugh and talk to your friends. I am thankful for friends because they make me laugh and have fun. Once my mom took a few of my friends and me to a roller-skating place it was amazing the lights were dimmed and music was playing. Some people got blades and others got normal skates.

I'm also thankful for TV, because when you are bored you can find a show that you like at any time day or night. One of my favorite shows is sponge-bob he is funny and almost always has good spirit. I love the episode where sponge-bob helps plankton find a pet. Another show I like is called Victorious. I like the episode when Andre helps Jade with a song and Andre starts to like Jade.

All of those things I am thankful for, up above, makes life are easier and nicer. Life would be different if I didn't have those things. Those things make me happier and make me a better person.
