Why I'm grateful for

by Sarah Alvarado

I'm grateful that I have a place to live in .
And that I have friends to trust to always in
my side . I'm also grateful that my parents
help me to grow up . A never thing is I have
food to eat. And I'm also grateful that I have
a car to ride to place to place. I'm also
grateful for technology it help me call my
mom sister and my family. Without
technology I can't talk to my family
member. This why I'm grateful.
