### I Am Thankful!!

I am thankful for my family. They have always been there for me no matter what. They give me everything I want and need. I am thankful for my mother, my father, my sister, and my brother. They are super supportive of everything I do and they always encourage me to do better and better. I am thankful for them and I am very happy to have them in my life! My family is most definitely the best people in my life.

My parents and my siblings motivate me, support me, help me, and they are always there for me. My mom and dad both take care of me. They provide food, shelter, clothing, and everything else I need and want. I never go hungry and I am never lonely because of them. They show me love and affection; they protect me from all harm of the outside world. They protect me and defend me when no one else is on my side. My parents are always there and never allow anything bad to happen or come my way. My siblings allow me to confide in them. They provide me with a sense of security that I can come to them with any type of problem I have. My older sister helps me with issues that I don't know how to deal with and my younger brother provides the laughter and happiness that I need when I am sad or in a bad mood.

My family is the best! I am thankful to have such a great family. I am truly thankful to have them in my life. I am thankful for my parents who raised me and my siblings who always look out for me. My family cares for me, supports me, plays with me, believes in me, and encourages me. Therefore, I am thankful for my parents and my siblings for making my life so great!
